

NUTRAFOL

Finally, a whole-body approach to **acne**.

Meet Clear Skin Nutraceutical, an innovative supplement that multi-targets key root causes of mild to moderate acne in women for clearer, smoother skin in 4-12 weeks.*

It's time we address acne differently.

Just 14% of women¹ are satisfied with their acne treatments—and we can see why.

When outdated solutions only mask breakouts or offer temporary relief, it can feel like clear skin is out of reach.

We set out to give women a new option. Clear Skin Nutraceutical is physician-formulated to target stress, hormones, and other internal factors that cause acne.* Fueled by 100% drug-free, vegan ingredients, it is clinically tested to deliver the skin clarity women have been waiting for.*

Pair this formula with your Hair Growth Nutraceutical to support both hair and skin health from within.

NUTRAFOL

Your skin transformation begins today.

There's so much more to acne than what you see in the mirror. Your skin is a reflection of your overall health, and caring for it requires a **whole-body approach**.

Our new Clear Skin Nutraceutical works below the surface to **multi-target key root causes** of acne—putting clearer, smoother skin within reach, at last.[‡]

A beautiful journey is about to unfold.

Clear Skin Nutraceutical is your foundation for clearer, smoother skin in just 4 daily capsules.[‡]

1-4 weeks:
Balanced oil production and reduced acne breakouts.^{1,‡}

5-8 weeks:
Improved skin clarity, texture, and hydration, plus reduced redness.^{1,‡}

9-12 weeks and beyond:
Visibly clearer skin and improved post-acne dark spots.^{1,‡}

Before 4 weeks 8 weeks 12 weeks

Finally,
the **clarity**
you've been
searching
for.

From the #1 dermatologist-recommended hair growth supplement brand comes a breakthrough Nutraceutical to address mild to moderate acne in women:

Clear Skin Nutraceutical.

Physician-formulated

Results
in **4-12 Weeks**

Clinically tested

100% drug-free
and vegan

If you've been told to see acne as
just a skin problem, that's a problem.

Our **whole-body approach** targets key root causes of acne and post-acne dark spots so you can see **clearer, smoother skin**.

1-4 weeks:

Vitamins, minerals, probiotics, and natural botanicals reduce stress levels, aid metabolism, and support the gut microbiome to help balance oil production and reduce acne breakouts.^{1,6}

5-8 weeks:

Ingredients begin to target normal hormonal fluctuations that can cause monthly breakouts to improve skin clarity, promote smoother texture, increase skin hydration, and reduce redness.^{2,8-10}

9-12 weeks and beyond:

Ingredients continue to promote a healthy immune response and support healthy digestion to decrease acne overall for visibly clearer skin and improved post-acne dark spots.^{2,8-11,12}

*Results are based on our clinical study and may vary.

14% of women think
their acne
treatment is working.¹³

We think you
deserve better.

At Nutrafol, our mission has always been to help people become the best version of themselves. Our whole-body approach to hair growth has given over 1 million people their confidence back—and now we're doing the same for women with acne.

We know the toll acne can take—mentally, physically, and emotionally—especially when every treatment you've tried (and you've tried them all) falls short.

So, we set out to do things differently.

In a culture full of quick fixes and surface-level solutions, Clear Skin Nutraceutical dares to go deeper. By targeting bio-specific root causes of acne breakouts, and the pesky marks they leave behind, we're changing the way the World sees Women's acne.
