

# NUTRAFOL

## Introducing *Nutrafol Collagen Infusion.*

By age 30, your body begins breaking down 1-2% of your collagen each year. By age 50, you'll lose up to 30% of your collagen.

The scalp loses collagen and elastin as you age—leading to hair that's shorter, weaker, and less pigmented.

Nutrafol formulated new **Collagen Infusion** to combat the effects of aging on hair with bioavailable Marine Collagen Peptides and other natural ingredients clinically shown to:

1. Strengthen hair so it can grow longer<sup>1,3</sup>
2. Reduce visible signs of aging<sup>1,2,4</sup>
3. Increase scalp hydration and elasticity<sup>4,5</sup>

**Features:** Dissolves ultra-quickly and has no taste. Physician formulated. Recyclable packaging. Free of hormones, drugs, gluten, dairy, GMO, soy, and artificial colors and flavorings.

The 2-tiered  
approach  
*for stronger  
hair that can  
grow longer.*

Hair Growth Nutraceuticals  
**The Foundation for Hair Growth**

Clinically proven to improve hair  
growth, visible thickness, and strength  
by targeting multiple root causes  
of thinning through all life stages.<sup>6-9</sup>

Collagen Infusion  
**Extra Support for Aging**

Combats the effects of aging on hair by  
replenishing collagen and protects the scalp  
for stronger hair with less breakage.<sup>1-5</sup>
