

# *fresh*

Exfoliate your way to  
clean, smooth skin

# *fresh*

Beauty minimalists rejoice! *fresh*'s latest innovation, Sugar Strawberry Exfoliating Face Wash, combines multiple skincare steps into one. The multi-tasking formula gently exfoliates and cleanses while refining the look of pores (without drying!) to reveal incredibly soft, smooth skin.

With real strawberries and smoothing sugar crystals that melt as they polish, Sugar Strawberry Exfoliating Face Wash is ideal for daily use. In fact, you can customize your level of exfoliation by varying how much water you use: adding less water leads to a stronger scrub while using more water creates a gentler exfoliation.

So go ahead, start your day off sweet!
